

In the Name of God the Disavower, the Compeller!

God, no other god is there but It the Disavower, the Compeller! As it was mentioned in the **Completion of the Bayān** as well as the **Treatise on Women, Life, Freedom**, cursing and imprecation of the tyrant and all the oppressors on the earth – in whatever form or kind they may be – together with their followers and supporting minions in this age is deemed to be completely permissible and licit (*ḥalāl*) with the All-High God, and a portion of the disavowal (*tabarrāʾ*) of the righteous and the association (*tawallāʾ*) of the sincere; whether these oppressors be among the people of Hot Air or whether they be the leaders, officials or the supporters of the loathsome, inverted and fabricated guardianship of the anti-people republic in Iran, as well as others.

This is because in opposition to these entified satans and demons of the time, experience has proven that the observance of chaste speech, temperance and grace has neither had nor possesses any positive effect. Rather it has often encouraged the tyrant to continue their oppression, whether in open appearance or in concealment. And since God is always with the oppressed and the victims, therefore the cursing words and imprecations of the oppressed towards the tyrant is the sole existing and legitimate weapon and arms for that oppressed victim in opposition to the tyranny of the despotic oppressor; and so, due to this, the curse and execration of the oppressed in reality is and has always been the manifestation of the Divine anger and the self-disclosure of Its Wrath streaming from the tongue of the oppressed victim towards the tyrant; and so, as a result, with God it is licit and permissible and is deemed as being part of the spiritual ethics of this age. This is has been the practice (*sunnah*) of this servant of the Truly Real and his Lights, so the curses of God and Its angels be upon the oppressing tyrants, all of them together, in every moment, and praise be unto God, the Light of the worlds!
